Information for Parents
and Carers

Who are Educational Psychologists?

- Hull City Psychological Service is part of Hull City Council Children's Services.
- We work with children and young people aged 0-25 years in nurseries, schools and colleges to improve the learning, social and emotional environment.
- We have a degree in Psychology and post graduate specialist training up to Doctorate level covering child development, how young people think and learn, behave, communicate and maintain relationships.
- We use our knowledge of psychology, learning and education and emotional wellbeing to support teachers, parents/carers and pupils.
- We are registered with the Health and Care Professions Council (www.hcpc-uk.org)

What will happen when we work with your child?

Your child's school have contacted us because they have concerns about your child's learning and progress.

With your written consent we may:

- Observe your child in the classroom
- Carry out activities with your child to assess their development in different areas – this may be play based or may be standardised tasks such as language activities or cognitive assessments.
- Talk with your child to get his/her ideas on how s/he learns best
- Talk with you about your thoughts and feelings
- Talk with other professionals who are involved with your child

We may then write a report that will be sent to you and the school. This will summarise your child's strengths and needs and suggest ways forward.
